Subject: Allocated funding

Hi Janie,

As a representative for Glasgow Kelvin College Students Association, we are writing to let you know we are disappointed in the funding allocated by GCRB to Glasgow Kelvin College. We feel our allocation does not proportionately correlate with student population of the College. As you are aware we represent some of the most deprived students in Glasgow, and with just under 19% of the funding being allocated to the College, we feel this may have some negative effects on student retention and attainment.

I would like to query why when 39% of SIMD20 students attending Glasgow Colleges attend Glasgow Kelvin College we received less than 19% of the available funding.

I patiently await your response.

Lauren McLaren
President of Welfare, Community & Sustainability
Glasgow Kelvin College
