

Device Connection Instructions

Connect an Android device to Glasgow Kelvin College's Eduroam service

Your device must support WPA2 Enterprise in order to be able to connect to eduroam.

- 1) Go to the Apps list and tap Settings > WiFi
- 2) From the Available WiFi Networks section tap on eduroam to connect
- 3) Enter your username in '**Identity**' (email address i.e. joebloggs171@glasgowkelvin.ac.uk) and college password ('**Anonymous**' – please leave empty)
- 4) Set the following settings if required:
 - Server Certificate Validation: '**Do not validate**' or leave empty or '**(unspecified)**'
 - EAP Method: **PEAP**
 - Phase 2: **MSCHAP v2**
- 5) Once you are successfully authenticated, you will automatically connect to eduroam within the College and at other eduroam institutions, without having to re-enter your username and password (unless you change your password).
